

# PRODUCT DATA SHEET

## 4150 ELECTRICAL TAPE. Single sided Polyester.

### Product Features & Applications:

- \* Slot edging.
- \* Lead anchoring.
- \* Field coil bundling.
- \* Wrapping.
- \* Harnessing.
- \* Interphase/interlayer insulation.
- \* Economical.

### Product Specifications:

* Temperature:	105 deg. C
* Backing:	Polyester (0.013) laminated with rope fibre
* Max width:	1150mm
* Adhesive:	Rubber thermosetting
* Colour:	White (natural)
* Backing thickness:	0.089mm
* Total thickness:	0.152mm
* Tensile:	66.5 N/10mm
* Elongation:	4%
* Adhesion to steel:	5.5 N/10mm
* Insulation resistance:	45 megohms
* Direct electrolytic corrosion:	0.9
* Dielectric strength:	4500 volts
* Moisture resistance:	Excellent
* Solvent resistance:	Very good
* Storage stability:	Good
* Approvals:	Available on request

All information and recommendations issued on HUSKY TAPE CONVERTING products, has been based on research and is believed to be reliable, but does not constitute a warranty. All HUSKY TAPE CONVERTING products are sold with the understanding that the buyer will independently determine the suitability of the product for the buyer's purpose.
