

PRODUCT DATA SHEET

510 ELECTRICAL TAPE. Single sided Glass Cloth.

Product Features & Applications:

- * Work horse applications.
- * Coil insulation.
- * Relays.
- * Transformer covers.
- * Appliance insulation.
- * Heavy gauge wire hold-down.
- * Splicing.
- * Solenoids.
- * Motor shop repairs and construction.
- * Electrical transmission lines.

Product Specifications:

* Temperature:	130 deg. C
* Backing:	Glass cloth
* Max width:	1500mm
* Adhesive:	Rubber thermosetting
* Colour:	White
* Backing thickness:	0.125mm
* Total thickness:	0.189mm
* Tensile:	332.5 N/10mm
* Elongation:	6%
* Adhesion to steel:	5.5 N/10mm
* Insulation resistance:	10 ³ megohms
* Direct electrolytic corrosion:	0.95
* Dielectric strength:	2500 volts
* Moisture resistance:	Excellent
* Solvent resistance:	Excellent
* Storage stability:	Very good
* Approvals:	Available on request

All information and recommendations issued on HUSKY TAPE CONVERTING products, has been based on research and is believed to be reliable, but does not constitute a warranty. All HUSKY TAPE CONVERTING products are sold with the understanding that the buyer will independently determine the suitability of the product for the buyer's purpose.
